

1.

"Abroad Dream" is a company that provides counselling services and details about universities in various countries for students all over the world. The company has decided to develop a website for those who are seeking scholarships, courses, and other details about universities that deal with them.

Suppose that you have been appointed as a UI/UX engineer and instructed to develop a prototype for this project. By applying UI/UX rules and guidelines to your design, number of pages, colours, typefaces, etc. can be chosen in accordance with your preferences.

You are required to design an appropriate prototype by using Axure RP considering the following facts:

(a) The main page of the web site should consist of the following:

- i. Register and Log in
- ii. Search
- iii. Help and Contact
- iv. Notifications
- v. About Us
- vi. Profile

(b) You are required to create a form according to the following labels for registering:

- i. Full Name
- ii. Date of Birth
- iii. Gender
- iv. Address

- v. Country
- vi. Mobile Number
- vii. Email
- viii. Password

(c) After registering or logging in it, a user should be headed to the page named 'Search University'. Within the page, you are required to provide the following options for a user to choose from:

- i. Country
 - A. Australia
 - B. Canada
 - C. USA
 - D. UK
- ii. Field of Study
 - A. Computer Science and IT
 - B. Business Management
 - C. Health Science
 - D. Arts
- iii. Degree Type
 - A. Master's Degree
 - B. Bachelor's Degree
 - C. Diploma
 - D. Certificate
- iv. Attendance
 - A. Online

B. On Campus

C. Blended

(d) After selecting all options, the user should be able to see the webpage with the

suggested universities, course names, annual fees per year, and location.
